

WISE Initiative for Stigma Elimination works to build resilient and hopeful communities by promoting inclusion and support for all affected by mental health challenges. We implement and advance proven practices for stigma reduction.

wise END STIGMA TOGETHER
one story at a time

SAFE PERSON >>

Using the 7 Promises, this presentation and resource helps us be safe and supportive people to those around us. Twenty five decals can be shipped for free. *Available in English & Spanish*

WISE STIGMA 101 >>

This presentation offers an overview of stigma and how we can play a role in reversing the stigma of mental illness by increasing inclusion, hope, and support.

UP TO ME >>

Participants of this program explore the story they have been telling themselves about their challenges and resilience. They are empowered to decide if and what they want to disclose from a strengths-based perspective.

COMPASSION RESILIENCE >>

The toolkits help you learn skills to build and maintain compassion resilience in an imperfect world. Versions for schools, healthcare and human services, and parents/caregivers address the topic from an individual, team/family, and organizational perspective.

Please join our quarterly WISE coalition meetings. Learn more about our programs and connect with us today! [eliminatestigma.org](https://www.eliminatestigma.org)
